

NOLAN HUYCK

East Lansing, MI | (248) 974-0245 | nrhuyck@gmail.com

EDUCATION

Michigan State University, East Lansing, MI - *College of Engineering*
B.S. Computer Science | Cumulative GPA: 3.67

Expected May 2029

TECHNICAL SKILLS

Languages: Python, JavaScript/TypeScript, SQL, HTML/CSS

AI / Data: Retrieval-Augmented Generation (RAG), LLMs, vector embeddings, semantic/vector search, prompt engineering, structured outputs, retrieval evaluation, data pipelines

Frameworks / Platforms: Next.js, React, Supabase/PostgreSQL, Databricks, REST APIs, Git, Vercel, Twilio, Vapi, n8n, Microsoft Graph, Shopify

EXPERIENCE

Stellantis - *AI / Software Development Intern*

Summer 2026

- Built internal AI software tools for business and engineering teams, translating team-specific workflows and knowledge into reusable LLM-enabled applications and automations.
- Developed domain-specific retrieval-augmented generation systems in Databricks for issue-focused knowledge retrieval using document ingestion, semantic chunking, vector embeddings, similarity search, context assembly, and grounded generation.
- Evaluated retrieval quality and model behavior, iterating on chunking, prompting, grounding, structured outputs, and response usefulness with stakeholder feedback.
- Integrated Databricks-hosted foundation models with Python tooling to turn ambiguous team requirements into working AI prototypes for cross-functional use.

iCode School Franchise, Novi, MI - *Lead Instructor*

Oct 2022 - Aug 2023

- Created and taught programming curriculum across multiple age groups; debugged student projects, explained computing concepts, and adapted lessons to different skill levels.
- Managed multiple classes in a customer-facing environment while communicating with students and families and resolving technical or classroom issues.

Paradise Park, Novi, MI - *Park Operator*

Apr 2024 - Sep 2024

- Operated attractions and guest-facing areas in a high-volume environment, prioritizing safety, customer service, problem solving, and a positive guest experience.

SELECTED PROJECTS

Patent Agent Pipeline - *Multi-Agent AI System*

Stellantis AI Hackathon

- Built a four-agent AI system that streamlines the patent documentation process, with each agent owning a distinct stage of invention disclosure, drafting, and review.
- Implemented on Stellantis's Databricks AI Gateway using selected internal APIs; developed and advanced through an internal AI-focused hackathon.

Stone Call - *Full-Stack AI Voice Platform*

Personal Project

- Built an end-to-end AI receptionist SaaS with authentication, onboarding, subscription billing, voice agents, and calendar booking APIs using Next.js, Supabase, Stripe, Twilio/Vapi, n8n, and Microsoft Graph.
- Designed server-side availability and booking workflows plus API integrations connecting telephony, voice AI, calendars, and deployment infrastructure.

E-Commerce Product Intelligence Engine - *AI / Data Pipeline*

Personal Project

- Built an AI-assisted supplier-product ingestion and grading pipeline that normalizes listings, extracts product signals, applies scoring heuristics, and ranks candidates against margin and paid-search economics for Shopify testing.
- Structured the workflow as a repeatable data pipeline for automated product discovery, feature extraction, scoring, and decision support.

LEADERSHIP & AWARDS

MPowerAll, Detroit, MI - *Executive Board Member / Website Director*

Jan 2023 - Feb 2024

- Managed and updated the nonprofit website and supported digital outreach and social media for community-service initiatives.

Rotary International, Northville, MI - *Board Member*

Jun 2023 - Sep 2024

- Coordinated volunteers, service relationships, meetings, and community-service operations.

Eagle Scout - **Boy Scouts of America**

Presidential Volunteer Service Award, Gold
